No. 1—On motion of Dr Snider, seconded by Mr. Cope,

Ordered

That the report of the Special Committees on the Industrial Farm and Home be adopted.

The report read and adopted is as follows.

To the Warden and Members of Norfolk County Council:

GENTLEMEN.—We, the members of the Special Committee for the Industrial Farm and Home beg leave to report as follows:—

We have met all told since the June Session six times, viz., five full meetings on July 3rd, August 22nd, Oct 26th, Dec. 11th, 1901, and Jan 6th and 7th 1902. The carrying out of the Council's direction concerning repairs, and the arranging of the reception room was the principal work, outside of the usual inspection of the Home. So far as the meetings in 1901 were concerned, these matters you became acquainted with at your visit at the December Session. Our present meeting has been for 2 days due to efforts we have made to get out an Annual Report that should be trustworthy. We took a careful inventory of the whole place, which we thought should be taken immediately after January 1st instead of after the January session. Then we went carefully over the Master's book-keeping especially the attendance register and it was slow work. Altogether we feel that while your Committee has probably given more attention than has been usual in the past or may be found necessary in the future, still as they have been practically re-arranging the service it will be found in the end to be time well spent. We have found throughout the year a continual improvement in the Farm and Home management, and we think, at present, it is as well managed as the conditions will permit.

We would recommend that in the coming spring the Master should be provided with all the farming implements necessary to carry on his work without either borrowing or hiring as has been the custom in the past.

All of which is respectfully submitted.

FRED S. SNIDER, Chairman.
